Profile Summary

Full Stack Web Developer with 4+ years of experience designing, developing, and maintaining scalable web applications for government and public service sectors. Experienced in PHP, Yii2 Framework, React.js, TypeScript, JavaScript, MySQL, and PostgreSQL, with strong expertise in dashboard development, geospatial applications, RESTful APIs, data visualization, and SEO optimization. Proven track record of delivering responsive web solutions, optimizing system performance, and collaborating with cross-functional teams using modern development workflows and Git-based version control.

Work Experiences

Medan City Government (Bappeda Kota Medan) – Medan, Indonesia **Oct 2022 -Present**
Programmer (Full Time)

- Developed and maintained the TJSL/CSR web application using PHP and the Yii2 Framework.
- Built responsive and modern user interfaces using JavaScript, AJAX, jQuery, Bootstrap, Tailwind CSS and ShadCN UI.
- Developed interactive dashboards and data visualizations using Chart.js for CSR monitoring and reporting.
- Integrated Leaflet.js and GeoJSON for interactive geospatial visualization and map-based data presentation.
- Optimized application performance, SEO, and backend processes for large-scale data management.
- Developed a public submission portal for CSR program proposals and community engagement.
- Developed and maintained frontend features for the “Sapa Kota” web application using React.js and TypeScript.
- Designed and implemented responsive dashboard systems and homepage interfaces with a focus on UI/UX best practices and accessibility for Sapa Kota of Medan City.
- Collaborated with development teams using Git for version control, deployment, and maintenance.

Al-Azhar Model Private Elementary School Medan – Medan, Indonesia **Sep 2022 - Jul 2025**
Programming Mentor (Part Time)

- Taught programming fundamentals to elementary school students using Scratch and Micro.
- Developed students' computational thinking, logical reasoning, and problem-solving skills through project-based learning activities.
- Guided students in designing and building their own simple games and interactive programming projects.
- Encouraged public speaking and presentation skills by mentoring students to demonstrate and explain their projects to peers and instructors.
- Prepared coding lessons, learning materials, and hands-on exercises tailored to young learners.

MAN 2 Model Medan – Medan, Indonesia **Sep 2021 - Oct 2022**
IT Specialist (Full Time)

- Maintained and supported IT infrastructure, including hardware, software, and network systems.
- Provided technical troubleshooting and user support for daily operational issues.
- Assisted in the development and preparation of digital learning materials and educational resources.
- Supported technology integration to enhance teaching and learning activities.

University of North Sumatra (USU) – Medan, Indonesia

Jul 2019 - Jun 2020

Laboratory Assistant (Part Time)

- Assisted in teaching programming fundamentals, algorithms, and object-oriented programming principles to undergraduate students.
- Mentored students in coding practices, debugging techniques, and problem-solving methodologies.
- Supported laboratory sessions by providing technical guidance for programming assignments and software development projects.
- Evaluated student coding exercises and provided constructive feedback to improve programming skills.

Education

University of North Sumatra (USU)

Jul 2024

Bachelor of Information Technology – GPA 3.56 out of 4.00

Organization and Volunteer Experiences

BEM Fasilkom-TI USU (Research & Technology Division)

2018 - 2019

Academic Counseling Division Staff

- Assisted in organizing academic development programs and technology-related initiatives for students.
- Provided academic guidance and support to help students improve learning outcomes and participation in academic activities.
- Collaborated with cross-functional student teams in planning and executing organizational programs and events.

UKMI Al-Khuwarizmi Fasilkom-TI USU – Medan, Indonesia

2019 - 2021

Secretary, Academic and Competition Division (AKKOM)

- Managed administrative documentation, meeting minutes, and organizational correspondence to support division operations.
- Coordinated academic development programs, workshops, and student competition activities.
- Assisted in planning and organizing educational events, seminars, and training programs for members.
- Facilitated communication and collaboration between division members, committees, and external stakeholders.
- Maintained records and reports related to academic and organizational activities.

Achievement and Award

- **Champion, Code for the Nation Hackathon 2022** - Won 1st Place in a national hackathon competition organized by Institut Teknologi Del (IT Del), Oct 2022.
- **PPA (Academic Achievement Improvement) Scholarship Awardee** - Received a merit-based scholarship for two consecutive years in recognition of academic excellence and achievement, 2018 – 2019.

Training and Certifications

- **Junior Web Programmer** — Indonesian Professional Certification Authority (BNSP)
- **Foundations of User Experience (UX) Design** — Coursera
- **Create High-Fidelity Designs and Prototypes in Figma** — Coursera
- **Web Programming Fundamentals** — Dicoding
- **Junior Graphic Designer** — Indonesian Professional Certification Authority (BNSP)

- **Junior Graphic Designer** — Digital Talent Scholarship (Vocational School Graduate Academy), Ministry of Communication and Information Technology (Kominfo)

Projects

TJSL/CSR Management System | PHP, Yii2, JavaScript, jQuery, AJAX, Bootstrap, MySQL, Chart.js, Leaflet.js - Live Demo: <https://csr.medan.go.id>

- Developed and maintained a web-based CSR management platform for Medan City Government.
- Built interactive dashboards, reporting systems, and geospatial data visualization features.
- Implemented a public proposal submission portal to support community participation and stakeholder engagement.
- Optimized application performance, SEO, and database operations for scalable data management.

Sapa Kota | React.js, TypeScript, Tailwind CSS, ShadCN UI, Recharts, Leaflet.js, GeoJSON - - Live Demo: <https://sapakota.medan.go.id>

- Developed responsive frontend features, dashboards, and homepage interfaces for a public service web application.
- Built analytics and issue recapitulation dashboards to support monitoring and reporting processes.
- Implemented interactive data visualization and geospatial mapping features using Recharts, Leaflet.js, and GeoJSON.
- Applied modern UI/UX principles to improve usability and accessibility across devices.

Tomato Plant Growth Prediction Based on Images by Robots Using Gradient Boosting | Python, Machine Learning, Computer Vision, Robotics - Demo Video: <https://youtu.be/GhNx8j6-K8E>

- Developed a machine learning-based prediction system for tomato plant growth using image data collected by robots.
- Implemented image preprocessing, feature extraction, and Gradient Boosting algorithms for predictive analysis.
- Integrated camera sensors and robotic systems for automated image acquisition and monitoring.
- Achieved prediction accuracies of 88.04% for tomato plant growth and 92% for tomato fruit growth.

Skills

Technical Skills :

- Languages: PHP, JavaScript, TypeScript, SQL, HTML5, CSS3
- Frontend: React.js, jQuery, AJAX, Bootstrap, Tailwind CSS, ShadCN UI
- Backend: PHP, Yii2 Framework, RESTful APIs
- Databases: MySQL, PostgreSQL, Database Design, Database Migration
- Visualization & Mapping: Chart.js, Recharts, Leaflet.js, GeoJSON
- Tools: Git, GitHub, Figma, Google Analytics, Google Search Console
- Concepts: Object-Oriented Programming (OOP), Responsive Design, SEO, UI/UX, API Integration, Database Optimization

Soft Skills :

- | | |
|-----------------------|-----------------------|
| • Problem Solving | • Technical Mentoring |
| • Analytical Thinking | • Public Speaking |
| • Teamwork | • Adaptability |
